

IP-401 iPhone Docking Backup Power Case

- *Docking backup power case for iPhone 3G/3GS with rotating belt clip.
- *Material of leather: high quality empaistic PU.
- *Vertical open style with sliding-in holding device.
- *Built-in Li-poly battery, capacity 1800mAh,
- *Charging on/off switch.
- *Charging time: 5 hours
- *Power supplied by USB cable.
- *2-color LED to indicate the status of built-in battery
- *Packing: 50pc/ctn, size 61x40x16cm, G.Wt.10kgs

IP-506 iPhone Portable 3500 mAh SOLAR Backup Power

- *Solar and electric 2-in-1 green charger.
- *Solar panel output: 5.5V/120mA.
- *Built-in Li-polymer battery, capacity 3500mAh
- *Output: DC 5.5+/-0.2V, 1A max.
- *Compatible with mobile phones, iPod, iPhone/3G, PDA, MP3/MP4 player, PSP, NDS, GPS etc.
- *Battery volume indicated by a string of LEDs.
- *Charge mode: USB port/AC adapter/sunlight
- *With on/off switch.

IP-505 iPhone Portable 4000 mAh Backup Power

- *USB backup power station, shape and size like an iPhone.
- *Built-in Li-polymer battery, capacity:4000mAh.
- *Output interface: USB
- *Output: DC 5.5+/-0.2V, 1A max.
- *Charge Mode: USB port/AC adapter
- *Battery volume indicated by a string of LEDs.
- *Suitable for mobilephones, iPod, iPhone/3G, PDA, MP3/MP4 player, PSP, NDS, GPS.

IP-418 iPhone Backup Power Station

- *Backup power station to extend using time of iPhone 3G/iPhone/iPod etc.
- *Li-ion battery, capacity 1000mAh.
- *Size 61x52x12mm, weight 40g.
- *Input 5V/800mA, Output 5V/500mA.
- *Standard 30PIN socket, use iPod charger to charge it.
- *Press button to test remaining capacity.
- *Multiple-protection circuit

IP-405 Wireless solution -- Bluetooth stereo receiver

- *Use for speakers which have iPod 30PIN connector, to let them become a bluetooth wireless speaker.
- *Bluetooth stereo receiving and transmit music to speaker.
- *Bluetooth A2DP, AVRCP profile.
- *Bluetooth V1.2 (class 2) Cup to 10 meters.
- *Supports automatism paired (no button).
- *Power from speaker directly.

IP-400 Bluetooth stereo Transmitter

- *New design especially for iPod/iPhone series.
- *Bluetooth technology transmit high-fidelity stereo music
- *Mini size
- *Support A2DP and AVRCP.
- *Bluetooth specification: V1.2(class2), up to 10 meters
- *Automatic paired without button, supports various pin code (0000, 1234, 9999, 8888etc).
- *Automatically connect the last paired device.
- *Supports remote control
- *No need for extra power input
- *Lower power consumption
- *Charge iPod/iPhone easily via USB power source with USB 8-pin plug.

IP-419 iPhone FM stereo Transmitter with LCD display

- * FM transmitter with novel shape, support iPhone 3G, iPhone, iPod and iPod.
- * Power from iPhone/iPod directly
- * Charges iPhone/iPod via car charger.
- * Excellent PLL wireless technology enhances stereo separation and noise reduction.
- * Full channel from 87.9 to 107.9MHz, 0.1MHz/Step.
- * Blue background LCD displays frequency.
- * Includes 1pc car charger

IP-420 iPhone Bracket for Bicycle/Motorcycle

- *Multiway car power adaptor, includes 1 USB port and 3 cigar lighters.
- *Provides power to 4pc electrics at same time.
- *Separate cigar plug with 0.8m cable
- *Transparent panel, shiny surface.
- *Input: 12-24VDC
- *Output: cigar lighter 12-24VDC, USB 5V/500mA

IP-700 Universal dock for iPhone 3G & iPod (Audio & Video output)

- *Infrared Receiver (IR): controls playback from a distance using the remote control.
- *Dock connector port: connects dock to computer or iPod/iPhone with cable that comes w/iPhone.
- *iPod/iPhone Connector: to Charge and Sync
- *AV out port: Connects both Audio and Video of iPhone/iPod to TV
